# Saurashtra University – IIC

The university is dedicated to instruction, research, and extending knowledge to the public (public service). Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation among all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years. Saurashtra University is one the Organization that have constituted the IIC to foster the vision of MoE and be a part for the promotion and development of innovation ecosystem.

## Brief about Event

The Government of Gujarat organized various programs from 7th October 2024 to 15th October 2024 to celebrate "Vikas Saptah" (Development Week). On 8th October 2024, as part of the event, the "Bharat Vikas Pratigya" (Indian Development Pledge) was observed, during which the students of the Social Work Building were administered the oath by the building's chairman, Dr. Rajeshbhai M Dave.

On 9th October 2024, a Rangoli competition was organized, in which the students of the Social Work Building created Rangolis depicting various aspects of development. The building's chairman, Dr. Rajeshbhai M. Dave, encouraged and motivated the students during the event.

On 10th October 2024, a public speaking competition was organized, in which the students of the Social Work Building presented their speeches on various aspects of development. The building's chairman, Dr. Rajeshbhai M. Dave, encouraged and motivated the students during the event.

On 11<sup>th</sup> October 2024, Mr. Vishal Sarvaiya explain that the tale of success It is a story of progress, persistence, and achievement. While every success story is unique, there are several common themes that tend to emerge in these tales:

Success often starts with a clear goal or vision. This could be a dream, a passion, or a problem that needs solving. Whether it's personal or professional, having a strong sense of direction is key. Failure is a natural part of any success story. Many successful people face setbacks or obstacles, but they use those experiences as learning opportunities. One of the defining qualities in any success story is the ability to keep going despite difficulties. The journey may not be easy, but the determination to push forward is often what separates those who succeed from those who give up. Success is rarely achieved alone. Support from friends, family, colleagues, or mentors can make a significant difference. Finally, after all the effort and perseverance, success is celebrated. This can be personal satisfaction, recognition from others, or achieving the goal that was once only a dream.

On 12<sup>th</sup> and 13<sup>th</sup> October 2024, when we talk about social media hashtags and the story of progress in the context of an event, we are looking at how digital tools, particularly hashtags, are used to create, amplify, and track progress in real-time during a specific event, campaign, or movement. In the context of an event, social media hashtags serve as digital markers that amplify and track the story of progress. Whether it's a global movement, a local cause, or a personal development event, hashtags help unite people, spread awareness, and reflect on the progress made

On 14<sup>th</sup> October 2024, events on Women Hemoglobin Checkup refers to a medical test or screening aimed at measuring the levels of hemoglobin in a woman's blood. Hemoglobin is an essential protein found in red blood cells, responsible for transporting oxygen throughout the body. Regular checkups and tests for hemoglobin levels are important for maintaining overall health, as abnormal levels can indicate underlying health conditions such as anemia or other blood-related issues

On 15<sup>th</sup> October 2024, session on Women's Empowerment refers to the process of enabling women to have control over their lives, make their own decisions, and access equal opportunities in all aspects of life. It involves giving women the tools, confidence, and rights to participate fully in society and to achieve economic, social, political, and personal success. Empowering women not only benefits them individually but also has a positive impact on families, communities, and society as a whole.

## Key Points

During the session, below mentioned points were discussed:

- India's Development Pledge:
- Decorative Floor Art:
- Industrial/Vocational Training:
- Speech Competition and Discussion - "The Tale of Success":
- Social Media Hashtag – "The Story of Progress"
- Women's Hemoglobin Checkup Camp:
- Women Empowerment:

## Outcome

The session offered valuable insights to students by Mr. Vishal Sarvaiya could be an inspiring event or discussion focused on highlighting the achievements, progress, and transformations that students undergo throughout their educational journey. The event could showcase the diverse paths students take to success, their personal growth, challenges faced, and how they overcome obstacles to reach their goals.

Students learned how to create intricate floor art, enhancing their artistic skills and cultural expression. Participating in the speech competition helped students improve their communication, confidence, and public speaking abilities. Students engaged with social media responsibly, promoting positive and constructive messages about India's progress and development. Students learned the power of digital campaigns and how they can contribute to social causes and national progress. Students learned about the importance of women's health, specifically regarding hemoglobin levels, and the impact of anemia on overall well-being. Students gained deeper insights into the challenges faced by women and the importance of gender equality in society.

These outcomes not only helped students grow as individuals but also contributed to the larger goal of national development and empowerment, especially focusing on the tale of story issues.
