## Saurashtra University – IIC

The university is dedicated to instruction, research, and extending knowledge to the public (public service). Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation among all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years. Saurashtra University is one the Organization that have constituted the IIC to foster the vision of MoE and be a part for the promotion and development of innovation ecosystem.

## Brief about Event

SU Start-up and Entrepreneurship Council, in collaboration with IIC Saurashtra University, organized a seminar on "PM's Vision: Young India Strong India" on 22<sup>nd</sup> August, 2023. The event was held at the Class room of Smt. R D Gardi Department of Business Management, Saurashtra University Rajkot. That was an Excellent opportunity for students interested in entrepreneurship.

The speaker explained that while India is already making rapid progress in the area of sustainability, there is an urgent need to engage the youth of our country to enable us to meet our sustainable development goals. While adopting paperless documentation and using email for communication offers numerous advantages, it's important to consider potential challenges as well. These may include data security concerns, the need to ensure proper backup and archiving procedures, and the potential learning curve for individuals who are less familiar with digital tools.

Overall, as technology advances, the transition to paperless documentation and digital communication methods is becoming increasingly beneficial for saving time, money and resources. So, the new India will become a strong India. Youth should be productive, so youth should spend more time in productivity.

It was made understood by the speaker that expenses should not be spent on packaging. Many products and services have price issue because of the packaging expense. Minimalism is not only applied to products and services, but it can also extend to various aspects of life, including possessions, lifestyle choices, etc. So, only enough should be kept or used.

Absolutely, striving to be a good person is a noble and meaningful goal. Changing your mindset to value others and practice kindness can have a positive impact on both yourself and the world around you.

## Key Points

During the session, below mentioned points were discussed:

- Sustainability
- Paperless document
- Young Indian support
- Pricing Issue
- Minimalistic
- Save power
- FAQs related to PM's Vision: Young India Strong India

## Outcome

According to the event, students were made aware about the micro analysis and their responsibilities in building nation. Each and every one is responsible for the growth of nation with their contribution in one way or the other.

During the session it was made aware that every little thing matters even though it is relevant to individual or to the society. Creating awareness amongst the young mind is one of the paths to build the strong nation with the young mind.
